[Intro]

E/F# F# x3

E F# E F#
Oooooooooo ooooo oo Oooooooooo ooooo oo
E F#
Everybody's high on consolation
E F#
Everybody's trying to tell me what is right for me, yeah
E F#
I need a drink and a quick decision
D#m G#m E
Now, it's up to me, ooooo, what will be

E B C#m F#
She's gone she's gone oh, why oh, why I'd better learn how to face it
(She's gone oh, why oh, why)
E B C#m F#
She's gone she's gone oh, why oh, why I'd pay the devil to replace her
(She's gone oh, why oh, why)
E B F#
She's gone she's gone oh, why what went wrong
(She's gone oh, why)

Get up in the morning, look in the mirror
One less tooth brush hanging in the stand, yeah
My face ain't looking any younger
Now, I can see love's taken her toll on me

<ch>

Think I'll spend eternity in the city
Let the carbon and monoxide choke my thoughts away, yeah
And pretty bodies help dissolve the memories
They can never be what she once was to me
(was to me)
