Mercy

Why you gotta show up lookin' so good just to hurt me?
Why you wanna stop this whole damn world from turning?

Mercy

Why you hanging on so tight if this ain't working?
Why you wanna stop this flame if it's still burning?
Cause it's still burning

So if you're gonna break my heart, just break it
And if you're gonna take your shot, then take it
Take it
If you made up your mind, then make it
But make this fast
If you ever loved me
Have mercy

If you go out tonight and get drunk and lonely
Wind up home alone please don't call me
And say you miss me, no
